

Agilia SP Drug Protocol

Please visit the Pharmacist section of [AgiliaASSIST](#) for detailed explanations of each of the drug protocol options below.

Drug Name

Therapy Name (optional)

Dilution / concentrations: Complete either finite or range (optional)

Finite dilution 1	
Finite dilution 2 (optional)	
Finite dilution 3 (optional)	
Finite dilution 4 (optional)	
Finite dilution 5 (optional)	

OR

Range dilution: Minimum	
Range dilution: Default	
Range dilution: Maximum	

Clinical messages (optional)

Clinical advisory	
Clinical reminder	

Clinical reminder only

Clinical reminder frequency	
-----------------------------	--

Continuous rates

Flow rate unit	
----------------	--

Min hard limit	
Min soft limit	
Default	
Max soft limit	
Max hard limit	

2 digit management	
3 digit management	

Dose or volume over time (optional)

Dose rate unit	
KVO	
KVO flow rate	

Minimum volume / dose	
Default volume / dose	
Maximum volume / dose	

Minimum duration	
Default duration	
Maximum duration	

Loading dose (optional)

Dose or volume unit	
---------------------	--

Min hard limit	
Min soft limit	
Default	
Max soft limit	
Max hard limit	

Min duration	
Default duration	
Max duration	

Agilia SP Drug Protocol

Please visit the Pharmacist section of [AgiliaASSIST](#) for detailed explanations of each of the drug protocol options below.

Programmed bolus (optional)

Dose or volume unit	
---------------------	--

Minimum dose / volume	
Default dose / volume	
Maximum dose / volume	

Minimum duration	
Default duration	
Maximum duration	

Direct bolus (optional)

Default flow rate	
-------------------	--

Maximum volume	
----------------	--

Pressure mode: Complete either 3 level or variable mode (optional)

3 level: Low	
3 level: Medium	
3 level: High	

Variable: Default	
Variable: High	

Authorised Signature

Name:		Date:		Signature:	
-------	--	-------	--	------------	--

By signing this Agilia SP drug protocol input parameter sheet you verify that the parameters chosen have been reviewed and deemed acceptable for clinical use.
